Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: the present invention is drawn to the treatment of various diseases or conditions using a composition comprising an estrogenic compound as described in the instant claims. U.S. patent nos. 6,528,676 and 5,892,069 to D'Amato et al teach estradiol derivatives that are useful as anti-mitotic agents; U.S. patent no. 5,661,143 to D'Amato et al teaches a method for treating a mammalian disease characterized by undesirable cell mitosis by administering to a mammal a compound as described in claim 1 of the invention. The closest prior art of record fail to teach or fairly suggest the specific estrogenic compound(s) of the present invention, and as such, a method of treating diseases by administering a composition comprising said compound(s) is found unobvious. The instant claims have therefore been allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sikarl A. Witherspoon whose telephone number is 571-272-0649. The examiner can normally be reached on M-F 8:30-6:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Johann Richter can be reached on 571-272-0646. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
